

“GRAY FORM”
 Chicago Public Schools – Student Transportation Services
School Bus Stop Change Request
School Year –2018-2019

All non-special education students are assigned for pick up and drop off at the CPS school site nearest their home address. The Chicago Public Schools uses an internally designed computer run for all CPS students requesting transportation service. All distance measurements are made using the straight line method with eight blocks to the mile. The mileage measurement is a close approximate but is not map based. Parents/ guardians who want to change the pick up/drop off to a different CPS school site may complete this form to request the change in accordance with the policies identified below. Return the completed form by **June 1, 2018**, to the school office as part of the “Application for Bus Service”. This form is not applicable for summer school bus service. The principal will review the form for completeness and accuracy and forward it to Student Transportation Services (STS) for review. After the review is completed, the school will be notified in writing of the decision and the school staff will notify parents of the outcome of the request.

Do not use this form to request a change in bus stop location for Park Kids Programs. Use the “Chicago Park District – Park Kids Request – Green Form”.

Policy

1. This form is to be used by parents requesting a CPS school site that is not one of the two closest pickup sites to their home.
2. The requested stop must be an active stop at the student’s school.
3. Non-special education students eligible for bus service who request a bus stop change for day/child care needs, must select the closest CPS school site to the day/child care facility. It is the parent’s responsibility to provide adult supervision during a student’s walk to and from the assigned pick up/drop off location.
4. Applicants are advised that routes and stops may change from year to year.
5. This stop location change will be five days a week, have the same address for pick up in the morning and drop off in the afternoon.
6. A route must have available seats for students to be added for this purpose. No additional bus routes will be added to serve requested school sites. If a bus becomes overcrowded, priority will be first given to eligible students normally assigned to the route.
